

Thank you for agreeing to be part of the Math Learning Networks this year. As part of our learning journey, we are asking you to complete this brief questionnaire about your attitudes, beliefs and practices with respect to mathematics. **The information will be kept confidential and no teacher or school will be identified based on the responses.** We will use the information to inform the implementation of the Board math goal and the direction taken during the course of the network. Please be as honest and frank as possible, so that your experience in the network can be as rewarding and fruitful as possible.

Thanking you in advance,

Susan Davidson

1. Please enter your 4-digit code

2. What is your network designation:

- A
- B
- C
- D
- E
- F

3. To be good at mathematics at school, how important do you think it is for students to....

	not important at all	not very important	not sure	important	very important
remember formulas and procedures	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
think in a sequential and procedural manner	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
understand mathematical concepts, principles, and strategies	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
be able to think creatively	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
understand how mathematics is used in the real world	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
be able to provide reasons to support their solutions	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

4. How well prepared do you feel you are to teach....

	not very prepared	not prepared	not sure	prepared	very prepared
fractions, decimals and percentages	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
ratios and proportions	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
measurement - units, instruments and accuracy	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
perimeter, area, and volume	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
geometric figures - definitions and properties	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
geometric figures - symmetry, motions and transformations, congruence and similarity	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
coordinate geometry	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
algebraic representation	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
evaluate and perform operations on algebraic expressions	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
solving linear equations and inequalities	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
representation and interpretation of data in graphs, chart, and tables	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

5. Please rate your comfort level teaching mathematics to:

	not at all comfortable	not comfortable	unsure	comfortable	very comfortable
your current grade	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
your current division	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
the division 'below' you	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
the division 'above' you	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

6. In your mathematics lessons, how often do you usually ask students to do the following:

	never	almost never	some lessons	most lesson	every lesson
explain the reasoning behind an idea	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
represent and analyze relationships using tables, charts, or graphs	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
work on problems for which there is no immediately obvious method of solution	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
use computers to solve exercises or problems	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
write equations to represent relationships	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
practice computational skills	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
use graphing calculators to solve exercises	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

7. How would you describe the typical pedagogical approach mostly used in your classroom during your numeracy block:

- Inquiry is the norm for learning new concepts
- Use of examples followed by independent practice is the norm

8. In mathematics lessons, how often do students....

	never	almost never	some lessons	most lessons	every lesson
work individually <u>without</u> assistance from the teacher	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
work individually <u>with</u> assistance from the teacher	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
work together as a class with the teacher teaching the whole class	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
work together as a class with students responding to one another	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
work in pairs or small groups <u>without</u> assistance from the teacher	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
work in pairs or small groups <u>with</u> assistance from the teacher	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

9. Please provide your opinion about each statement:

	Agree	Disagree
A student performing at level 2 is likely to continue performing at level 2	<input type="radio"/>	<input type="radio"/>
All students can learn	<input type="radio"/>	<input type="radio"/>
Mathematics is a subject area that is harder to learn than other subject areas	<input type="radio"/>	<input type="radio"/>
All students can learn from their peers	<input type="radio"/>	<input type="radio"/>
Inquiry math learning is difficult for students with weaker math skills	<input type="radio"/>	<input type="radio"/>
With very few exceptions, all students can work effectively in groups	<input type="radio"/>	<input type="radio"/>
Inquiry takes too much time	<input type="radio"/>	<input type="radio"/>
Teaching by strand is the most effective way to cover the curriculum	<input type="radio"/>	<input type="radio"/>
Students need to have basic skills before they can engage in math inquiry learning	<input type="radio"/>	<input type="radio"/>

10. To what degree does student success in mathematics depend on:

	low degree	2	3	not sure	4	5	high degree
available classroom resources	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
communication skills (reading/writing/listening/speaking)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
home support	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
integration of technology	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
style of instruction (inquiry/teacher-led)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
student attitude toward math	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
student prior math learning	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
teacher content knowledge of math	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
teacher attitude toward math	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

11. Please provide 3 examples of what you would consider to be basic math skills:

Example 1

Example 2

Example 3

12. Please provide 3 examples of what you would consider to be higher-order math skills:

Example 1

Example 2

Example 3

13. In your opinion, what % of a math class should be used by students engaged in inquiry versus teacher led lessons or independent practice? (please ensure the total % equals 100)

% of inquiry

% of teacher led lessons or independent practice

14. Please indicate what your current teaching assignment is:

15. How many schools have you taught in?

- 1 school
- 2 schools
- 3 schools
- 4 schools
- 5 or more schools

16. How many years have you been teaching?

- 1 - 5 years
- 6 - 10 years
- 11 - 15 years
- 16 - 20 years
- 21 or more years

17. How many years have you been teaching mathematics?

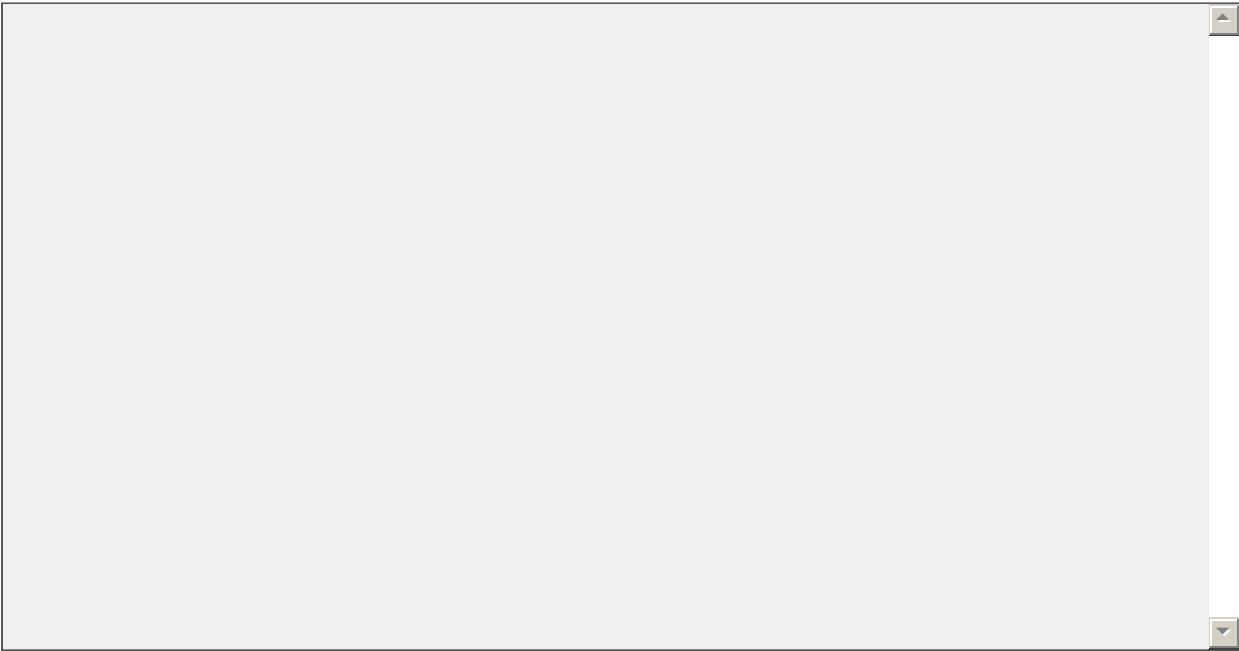

- 1 - 5 years
- 6 - 10 years
- 11 - 15 years
- 16 - 20 years
- 21 or more years

18. How many minutes per week do you teach mathematics to your mathematics class?

- 150 minutes
- 225 minutes
- 300 minutes
- 375 minutes

Other (please specify)

19. What do you want to learn during the network sessions?

A large, empty text input field with a vertical scrollbar on the right side. The field is light gray and occupies most of the upper half of the page.

Thank you for participating in this survey...your opinions are important to us!
