

Microlab Notes

Reflecting on professional learning...

1. As we continue to support professional learning that is embedded in daily practice (e.g., collaborative inquiry) – how has your role changed?
2. What are some successes, challenges and/or concerns based on your role supporting adult learning that is embedded in daily practice?
3. When you think about your practice, what is the one thing you won't compromise? What's at the heart of what you do? What do you stand for?

S-C-Q: Significant-Connections-Questions

As you read about Principals as Co-learners, make note of...

- What is **significant** in this model?
- What **connections** do you make to the model?
- What **questions** do you have after reading the monograph?
